Benefitting Montgomery Capital Rotary Club Disaster Relief Initiative

The strategy of the MCRC Disaster Relief Initiative is to focus on the "relief" phase which follows a disaster and to stay clear of the response and recovery efforts of professional "first responders". The MCRC disaster relief initiative cannot be a cure-all for the disaster event needs but can be an important piece of the puzzle in reducing suffering and helping the affected community.

Each disaster event should have its own unique conditions and needs. There are many response agencies and individuals that respond to different phases of the disaster event and proper interaction is important to District 6880 response

LUNCHES FOR
Learning

Lunches for Learning exists to break the cycle of poverty in rural Honduras. By providing a nutritious lunch to elementary school children at the school daily, these children have the opportunity to remain in school so they can complete their education and enter the workforce as literate individuals. Lunches for Learning program motivates children to go to school through at least the sixth grade and learn to read, write, and acquire necessary math skills.

The program, started by Ron Hicks, former Montgomery Capital Rotary Club member; invariably improves health and wellbeing of these children and give them in capabilities to move beyond abject poverty.

For information we encourage you to check out the program's website at www.lunchesforlearning.org
